

Microbac Laboratories, Inc. Welcomes

Mr. Bill Walsh, CIH *New Managing Director of the Chicagoland Division*

Please join us in welcoming **Mr. Bill Walsh** as the *new Managing Director of the Microbac Laboratories, Inc. Chicagoland Division*. Bill arrives at Microbac with over 25 years of extensive experience in laboratory and quality operations. Over the last seven years, he served as the Division Director of Bureau Veritas North America (NATLSCO) in Lake Zurich, Illinois. In this leadership role, Bill was responsible for technical, financial, and employee management of a laboratory specializing in industrial hygiene analyses.

Throughout his career, he has demonstrated success in analytical chemistry and customer relations with companies in the United States and worldwide. Bill possesses an impressive array of technical expertise, overseeing laboratory operations involved in a wide variety of chemical and microbiological analyses, including the validation of many new analytical methods.

As my corporate position continues to expand, I am extremely proud to have Bill guiding the Chicagoland Division as he provides a continued commitment of quality and service to your company.

Sincerely,
