Dear Ms. Scharnagl:

Re: Laboratory Certification Number (04023)
Final Closure for Corrective Action Response (CAR)

The Office of Quality Assurance (OQA) has completed the review of your April 18, 2008 final corrective action report.

The administration of New Jersey's Environmental Laboratory Certification Program is based on guidelines established in the Regulations Governing the Certification of Laboratories and Environmental Measurements (N.J.A.C. 7:18 et seq.). Using these requirements, the results of the on-site audit, and the corrected residual deficiencies contained in the final CAR, your laboratory currently satisfies the requirements needed to operate under N.J.A.C. 7:18-1 et seq.

Updates to your certification status were made to your Annual Certified Parameter List (ACPL) effective July 1, 2008. A revised ACPL is enclosed and replaces the ACPL that your laboratory currently holds.

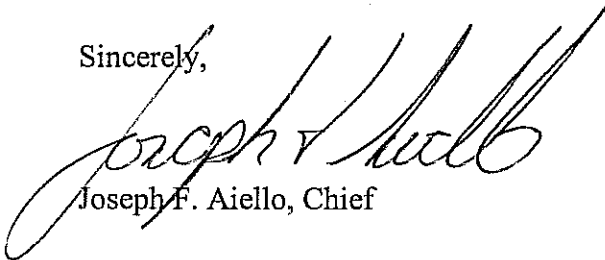

The following changes were made:

1. SDW01.02000, Total coliform/Fecal coli, (Presence-Absence (P-A) reporting format only) Standard Methods (SM) 9222B + SM 9221E, Certified.
2. SDW01.05000, Total coliform/ E.coli, SM 9223B (Colilert) (P-A reporting format only), Certified.
3. WPP01.02000, Fecal coliform, SM 9222D, Certified.
4. WPP01.04000, Total coliform, SM 9222B, Certified.

5. WPP01.10000, Heterotrophic Plate Count, SM 9215B, Certified.
6. WPP01.12000, Pseudomonas aeruginosa, SM 9213E, Certified.

If you have any questions regarding this matter please feel free to contact Debra Waller at (609) 292-3950.

Sincerely,

Joseph F. Aiello, Chief
