Amy Sheehy
Microbac Laboratories, Inc
250 W. 84th Drive
Merrillville, IN 46410

Dear Amy Sheehy:

According to our records, the Indiana chemistry and microbiology drinking water compliance monitoring laboratory certification for Microbac Laboratories, Inc is currently set to expire December 31, 2025. Due to scheduling conflicts your on-site assessment/audit is set to be performed in the last quarter of 2025. To allow time for the renewal of certification to be processed, we are extending your laboratory's chemistry and microbiology drinking water compliance monitoring certification to **March 30, 2026**. IDEM has been made aware of this extension.

The laboratory evaluation is for purposes of determining your laboratory's capabilities for analyzing samples for content pursuant to the National Primary Drinking Water Regulations (NPDWR) as implemented by 40 CFR Part 141 and the Indiana Primary Drinking Water Regulations (IPDWR) as implemented by 327 IAC 8-1 and 8-2.

With continuing successful performance on annual performance evaluation samples (WS PT) for all certified methods and payment of yearly registration fee, your certification will remain valid to the abovementioned date. If you have questions or need further information, please contact me.

Sincerely,

Katie Sullivan

Drinking Water Laboratory Certification Program Director
